Update

Band
All

Show only spots on this band.

Use Band Colors
When checked on, path colors are coded according to band

Call
w3toy

If non-blank, show only those spots involving the specified call

Latitude

Center of map latitude

Longitude

Center of map longitude (east positive, west negative)

Time period

Show spots in this period of time

- Day/Night overlay
Shows which areas of the earth are in daylight.
- Exclude Special Callsigns
Excludes calls starting with Q and 0, typically used for balloon telemetry

If the map fails to load then try an [alternative](#). Note this is off site.
